BULGARS BEATEN BY THE SERBIANS

(By Associated Press.)
ATHENS, August 31.—Fighting is severe along the Macedonian frontier. The Bulgarians suffered a severe check at the hands of the Serbians on the entente left flank, losing, it is estimated, 15,000.
The Bulgarians attacked the Serbians in close formation, in German style, near Lovozit, and suffered so severely they were compelled to ask for reinforcements. The Serbians appear masters of the situation at Gomichevo.

(By Associated Press.)
ROME, August 31.—Bulgaria has stipulated that it must have the assistance of 200,000 Turks as a condition of declaring war against Rumania.

SALE OF THE FRISCO CONFIRMED BY COURT

(By Associated Press.)
ST. LOUIS, August 30.—The sale of the St. Louis and San Francisco railroad was confirmed by Circuit Judge Sanborn.
The sale was approved over the protest of nine creditors, who said that provision should be made for unsecured creditors.
Judge Sanborn said that the sale gave them opportunity to secure 25 per cent of their claims and that if the road had not been reorganized they could not secure anything. The road brought \$47,500,000.

(By Associated Press.)
WASHINGTON, August 30.—Congressional investigation of the proposed reorganization of the Frisco railroad was proposed in a joint resolution introduced today by Representative Keating, of Colorado. The resolution was referred to the rules committee.

ATHENS, August 31.—Diplomatic developments make it appear that within 48 hours Greece will have abandoned her policy of neutrality.

BORDER TROOPS HURRIED HOME

(By Associated Press.)
WASHINGTON, August 31.—Orders for the return to their state mobilization camps of 15,000 national guardsmen now on the Mexican border were issued by the War department last night. Gen. Funston was directed to return three regiments to New York, two to New Jersey, two to Illinois, two to Missouri, and one each to California, Oregon, Washington and Louisiana.
Some of the guardsmen on the border probably will depart Saturday and others probably Sunday. A big proportion will not be able to en-train before the time set for the strike, army men say.

SHERIFF SWUNG UP BY FRENZIED MOB

(By Associated Press.)
LIMA, Ohio, August 31.—A mob of 3000 people was in control of the town last night, due to a desire to lynch Charles Daniels, negro, charged with assaulting Mrs. John Barber, a white woman. The enraged citizens broke into the city jail. Failing to find their victim, they dashed for automobiles and made their way to the new Lima state hospital for the criminal insane, the strongest institution of its kind in the world, where the prisoner was supposed to be held by Sheriff Ely. The mob demanded the prisoner, and was given up after a desperate resistance by the sheriff, who was strung up to a tree to make him reveal the hiding place of his prisoner.

DIRECT APPEAL TO THE MEN BY THE PRESIDENT TO BE SATISFIED WITH TENTATIVE SETTLEMENT

(By Associated Press.)
WASHINGTON, August 31.—The brotherhood officials, through A. B. Garretson, agreed this afternoon to accept as a basis for calling off the strike the Adamson compromise eight hour bill, already approved by the president and House leaders. The measure was introduced immediately by Adamson in the House with a view to having it passed and sent to the Senate tomorrow.

(By Associated Press.)
WASHINGTON, August 31.—Congress put aside all other affairs today and devoted the whole attention of the members to the railroad strike situation, looking to enacting the president's legislative program to avert the threatened walkout.

The president, however, did not depend on Congress alone, but continued his unceasing efforts to get the brotherhood heads to postpone the strike order. Before noon he went to the capitol and conferred

Will Run One Passenger And One Perishable Goods Train on Every Railroad

(By Associated Press.)
WASHINGTON, August 31.—Opinion is greatly divided in both houses as to the efficacy of legislative enactments which might control the railroad strike.

The interstate commerce committee discussed the proposed legislation late into the night, but postponed action until after today's hearings. Representative Adamson, chairman of the commerce committee, and Majority Leader Kitchen have concluded that the eight hour day law can be passed through the house. Tentative drafts of measures include the following provisions:
• Establishment of eight hours as the standard for a day's work for railroad employees operating trains in interstate commerce and the appointment by the president of a wage commission of three members to observe the

with the leaders, urging the need of speed to get the bill through the legislative machinery of the House and Senate before Saturday night.

Although the brotherhoods declared that only a "favorable settlement" could delay a strike, a leader admitted that in view of the efforts made by Congress the men would vote for a delay if there was time to express their wishes.

The president is holding another card in a direct appeal to the men to realize that Congress is about to give them what they desired and to remain at their posts.

While the Interstate Commerce commission is hearing the rail and brotherhood heads the House managers agreed to the bill providing for an eight hour day and pro-rata pay for overtime, the commission to investigate the new conditions. It is planned to rush this bill through while the Senate is working.

CALLING BACK ALL MEXICAN TROOPS

administration and financial effects of institution of the eight hour day, the president to submit its recommendations to the Interstate Commerce commission, which would accept its findings unless clearly erroneous and adjust rates to insure a fair return on invested capital, wages of employees not to be reduced for a period to be determined below the present standard day's wage, pending the report, and pro-rata proportion to be paid for service in excess of eight hours.

Amendment of existing arbitration law directing the Board of Mediation and Conciliation, if unable to induce parties to submit controversies to arbitration, to refer differences to a board for investigation pending decision, of which it would be unlawful for employers to cause a lockout or employees to cause a strike; each

propositional leaders agree, if enacted by Saturday night, will be sufficient justification, in the opinion of the brotherhood leaders, to call off the railroad strike. This is the main source of the optimism that the great industrial tieup will not occur. The measure would establish eight hours as a standard work day for railroad employees engaged in interstate traffic.

The bill does not claim compulsory investigation is a feature of the president's program, but there were indications he would be satisfied with enough to prevent the men from striking and take up the remainder later.

Later it was announced that the House and Senate leaders had agreed to the House bill as a compromise measure. A special rule brings the measure up for immediate action of the house.

This bill makes the eight hour day effective December 1. Violation of the provisions will become a misdemeanor punishable by fine or imprisonment.

Although the leaders gave no assurances it is certain the strike will be called off immediately Congress passes the eight hour law.

The president plans to spend all forenoon tomorrow at the capitol to be in close touch with the legislative situation.

FERRY TRAFFIC SERIOUSLY HURT

(By Associated Press.)
SAN FRANCISCO, August 31.—Confident that no real inconvenience through food shortage will be felt in the event of a prolonged railroad strike, San Francisco contemplates with real concern the effect of a walkout on the transbay ferry system. Fifty thousand use the ferries daily in reaching their homes on the other side by three electric lines, two of which are manned by the brotherhoods, being converted steam roads. Officials are confident that later they will be operated by non-brotherhood men.

VONHINDENBURG'S MODERATE POLICY

(By Associated Press.)
LONDON, August 31.—Displacement of Gen. Von Falkenhayn, chief of staff, by the appointment of Von Hindenburg, the Post says, marks the end of a long and bitter strife between the men. Hindenburg generally is believed to favor the moderate policy of the imperial chancellor, while Falkenhayn is among the chancellor's opponents.

VETERANS MARCH AT ENCAMPMENT

(By Associated Press.)
KANSAS CITY, August 31.—With the annual parade and the "campfire" at Convention hall yesterday was the climax of the annual encampment of the Grand Army of the Republic. Dozens of feeble marchers were prostrated along the route. Most of the marchers were revived at emergency stations.

The parade was almost three hours in passing the reviewing stands. The veterans marched slowly, singing the songs of fifty years ago and shouting. Many veterans later were taken on a motor tour of the city.
